SUMMARY

Kazakhstan-based Web Frontend Developer with a strong passion for **Vue (2/3)** and backend technologies like **ElysiaJS**. Specialized in developing **internal services**, enhancing company ecosystems, and handling high-load commercial projects. Seeking an experienced mentor to transition into **open-source** contributions.

TECHNICAL SKILLS

Category	Technologies
Languages	JavaScript, TypeScript, HTML5, CSS3, SCSS
Frameworks/Libs	Vue 2/3, Nuxt 4 (SSR, i18n), jQuery, animejs, chart.js, Buefy
Backend/Runtime	ElysiaJS, Fastify, Express, Directus (CMS)
Tools/DevOps	Vite, Webpack, Bun, Git, Gitlab CI/CD, Docker, Cypress, Postman, Vitepress
Mapping/Data	OpenLayers, Yandex Maps, Firebase

PROFESSIONAL EXPERIENCE (4 years 8 months)

Frontend Developer (1 year)

Mikhailov Alexander Olegovich (Sole Proprietor)

- Created promotional pages and thematic events for the website
- Developed and enhanced the affiliate program cabinet
- Stack:** Webpack (Vue 2), Vite (Vue 3), animejs, chart.js

Frontend Developer (4 months)

Kaspssoft (IT, System Integration, Internet)

- Led the full-cycle development of the "Insan Charity Foundation" website using **Nuxt 3** (SSR, i18n).
- Developed a complex **interactive map** for a pilgrimage camp, integrating **OpenLayers**, Yandex Maps, and Firebase.

Frontend Developer (1 year 4 months)

OOO Diol

- Developed landing pages and corporate sites (etf-flashttrade, auto-rus.ru, etc.).
- Integrated critical **3rd party services**, including an online lending service (Postbank, Postcredit) and e-commerce widgets.
- Improved site visibility and performance by implementing **SEO** best practices, Yandex/Google metrics, and Google v3 Captcha.
- Streamlined deployment by writing **CI/CD** pipelines for auto-deploy in **Gitlab**.
- Ensured code quality by creating end-to-end tests using **Cypress** and maintaining project documentation via **Vitepress**.

Frontend Developer (2 years)

Web-Studio Megagroup.ru

- Managed and maintained over **150 new websites monthly**, specializing in rapid deployment of template solutions, e-commerce, and business catalogs.

- Performed site **redesigns** to meet checklists for adaptivity, cross-browser compatibility, and client-specific data migration.
 - Optimized front-end performance: implemented client-side widgets, added analytics goals (**Yandex/Google**), and optimized **PageSpeed**.
 - Integrated WebFlow and other constructor sites with CMS.S3, including the linkage of **JSON metadata** for store modules.
 - **Stack**: HTML, SCSS, JS, JQuery, Smarty, Vue 2, Mercurial, Gitlab.
-
